Contents

Foreword	1
Introduction	5
Background for IEA's TIMSS Advanced 2008 Assessment	6
The TIMSS Curriculum Model	10
Conducting TIMSS Advanced 2008	12
Countries Participating in TIMSS Advanced 2008	13
Exhibit 1 Countries Participating in TIMSS Advanced 1995 and 2008	14
Exhibit 2 Selected Characteristics of the TIMSS Advanced 2008 Countries	16
Description of the TIMSS Advanced 2008 Assessment	17
Chapter 1	21
The Advanced Mathematics Curriculum in the Participating Countries	
Overview of the Educational Systems	23
Exhibit 1.1 Structural Characteristics of the Advanced Mathematics Programs (Tracks) Assessed by TIMSS Advanced 2008	26
Description of the Students Assessed for TIMSS Advanced 2008	28
Exhibit 1.2 Size of the TIMSS Advanced 2008 Target Population for Advanced Mathematics, the Age Cohort, and the TIMSS Advanced Mathematics Coverage Index	29
Characteristics of the Advanced Mathematics Curriculum	32
Exhibit 1.3 Structural Characteristics of the Advanced Mathematics Curriculum in Participating Countries	33
Exhibit 1.4 Number of TIMSS Advanced Mathematics Topics in the Intended Curriculum	34
Exhibit 1.5 Curriculum Studied by TIMSS Advanced Students Includes Policies Regarding Use of Computers and Calculators	36
Exhibit 1.6 Examination System in Participating Countries	38
Exhibit 1.7 Methods Used to Evaluate the Implementation of the Curriculum for Advanced Mathematics	41
Exhibit 1.8 Formats in Which the Curriculum for Advanced Mathematics Is Made Available	42
Exhibit 1.9 Ways in Which Changes in the Curriculum Are Communicated to Teachers	43
Implementation of the TIMSS Advanced Mathematics Curriculum	44
Exhibit 1.10 Weekly Hours of Intended and Implemented Instructional Time for Advanced Mathematics in the Final Year	45
Exhibit 1.11 Percent of Time in Advanced Mathematics Class Devoted to TIMSS Content During the Final Year	47

Exhibit 1.12	Average Percent of Students Taught the TIMSS Advanced 2008 Mathematics Topics Prior to or During the Final Year	47
Exhibit 1.13	Intended and Taught TIMSS Advanced 2008 Algebra Topics	49
Exhibit 1.14	Intended and Taught TIMSS Advanced 2008 Calculus Topics	50
Exhibit 1.15	Intended and Taught TIMSS Advanced 2008 Geometry Topics	52
How Well Prepared Do Teachers Feel They Are to Teach Mathematics?		53
Exhibit 1.16	Percent of Students Whose Teachers Feel “Very Well” Prepared to Teach the TIMSS Advanced 2008 Mathematics Topics	54
Exhibit 1.17	Percent of Students Whose Teachers Feel “Very Well” Prepared to Teach the TIMSS Advanced 2008 Mathematics Topics in Algebra, Calculus, and Geometry	56

Chapter 2 63

International Student Achievement in Advanced Mathematics

Distribution of Advanced Mathematics Achievement in the Participating Countries.		63
Exhibit 2.1	TIMSS Advanced 2008 Distribution of Achievement in Advanced Mathematics	65
Exhibit 2.2	Average Achievement in Advanced Mathematics by TIMSS Advanced 2008 Coverage Index for Advanced Mathematics.	70
Achievement on TIMSS Advanced 2008 Compared with Relative Achievement on TIMSS 2007		72
Exhibit 2.3	Average Mathematics Achievement at Fourth and Eighth Grades and in the Final Year of Secondary School for the TIMSS Advanced 2008 Countries.	73
Gender Differences in Advanced Mathematics Achievement in the Participating Countries.		76
Exhibit 2.4	TIMSS Advanced 2008 Average Achievement in Advanced Mathematics by Gender	77
Changes in Advanced Mathematics Achievement Between 1995 and 2008		78
Exhibit 2.5	Trends in Average Achievement in Advanced Mathematics.	79
Exhibit 2.6	Trends in Average Achievement in Advanced Mathematics by Gender	79
Achievement Differences Across the TIMSS Advanced 2008 Mathematics Content and Cognitive Domains		81
Exhibit 2.7	Average Percent Correct in the Advanced Mathematics Content and Cognitive Domains	83
Exhibit 2.8	Average Percent Correct in the Advanced Mathematics Content and Cognitive Domains by Gender	85

Chapter 3 89

Mathematics Performance at the TIMSS Advanced 2008

International Benchmarks

How Do Countries Compare on the TIMSS Advanced 2008 International Benchmarks of Mathematics Achievement?		91
Exhibit 3.1	TIMSS Advanced 2008 International Benchmarks of Mathematics Achievement	92
Exhibit 3.2	Percent of Students Reaching the TIMSS Advanced 2008 International Benchmarks of Mathematics Achievement.	94
Exhibit 3.3	Trends in Percent of Students Reaching the TIMSS Advanced 2008 International Benchmarks of Mathematics Achievement	94

Mathematics: Achievement at the Advanced International Benchmark	97
Exhibit 3.4 TIMSS Advanced 2008 Advanced International Benchmark (625) of Mathematics Achievement – Example Item 1	100
Exhibit 3.5 TIMSS Advanced 2008 Advanced International Benchmark (625) of Mathematics Achievement – Example Item 2	102
Exhibit 3.6 TIMSS Advanced 2008 Advanced International Benchmark (625) of Mathematics Achievement – Example Item 3	104
Mathematics: Achievement at the High International Benchmark	105
Exhibit 3.7 TIMSS Advanced 2008 High International Benchmark (550) of Mathematics Achievement – Example Item 4	106
Exhibit 3.8 TIMSS Advanced 2008 High International Benchmark (550) of Mathematics Achievement – Example Item 5	108
Exhibit 3.9 TIMSS Advanced 2008 High International Benchmark (550) of Mathematics Achievement – Example Item 6	110
Mathematics: Achievement at the Intermediate International Benchmark	111
Exhibit 3.10 TIMSS Advanced 2008 Intermediate International Benchmark (475) of Mathematics Achievement – Example Item 7	112
Exhibit 3.11 TIMSS Advanced 2008 Intermediate International Benchmark (475) of Mathematics Achievement – Example Item 8	114
Exhibit 3.12 TIMSS Advanced 2008 Intermediate International Benchmark (475) of Mathematics Achievement – Example Item 9	116

Chapter 4 119

Mathematics Students' Backgrounds and Attitudes

Home Environments Supportive of Advanced Mathematics Achievement	120
Exhibit 4.1 Books in the Home with Trends	121
Exhibit 4.2 Students Speak Language of the Test at Home with Trends.	123
Exhibit 4.3 Students and Parents Born in the Country with Trends.	123
Out of School Time and Computer Usage Among Mathematics Students	124
Exhibit 4.4 Time in Hours Mathematics Students Spend on Various Activities Outside of School on a Normal School Day	125
Exhibit 4.5 Time Students Spend Using a Computer Each Day	127
Exhibit 4.6 Computer Use at Home and at School	128
Exhibit 4.7 Various Ways Mathematics Students Use Computers for Schoolwork	131
Exhibit 4.8 Frequency of Computer Use for Mathematics Outside of Class.	131
Working with a Mathematics Tutor and Preparing for Mathematics Tests	132
Exhibit 4.9 Frequency of Working with Mathematics Tutor	133
Exhibit 4.10 Frequency of Preparing for Mathematics Test or Examination	134
Students' Reasons for Studying Advanced Mathematics	135
Exhibit 4.11 Students' Reasons for Studying Advanced Mathematics – Students Have Positive Affect Toward Mathematics	136
Exhibit 4.12 Students' Reasons for Studying Advanced Mathematics – Good Teachers and Teaching	136
Exhibit 4.13 Students' Reasons for Studying Advanced Mathematics – Advice from Others . . .	139

Areas of Future Study for Students of Advanced Mathematics	140
Exhibit 4.14 Advanced Mathematics Students' Aspirations for Future Study	141
Exhibit 4.15 Advanced Mathematics Students' Aspirations for Future Study by Gender	143

Chapter 5 145

Advanced Mathematics Teachers and Instruction in Mathematics

Background Characteristics of Advanced Mathematics Teachers	146
Exhibit 5.1 Advanced Mathematics Teachers' Gender, Age, and Number of Years Teaching	147
Exhibit 5.2 Teachers' Plans to Continue Teaching Advanced Mathematics	147
Teacher Education for Teaching Advanced Mathematics	148
Exhibit 5.3 Highest Educational Level of Advanced Mathematics Teachers	149
Exhibit 5.4 Teachers' Major or Main Area(s) of Study.	151
Exhibit 5.5 National Requirements for Being a Teacher of Advanced Mathematics	151
Advanced Mathematics Teachers' Professional Activities and Development	152
Exhibit 5.6 Teachers' Participation in a Professional Organization for Mathematics Teachers	153
Exhibit 5.7 Index of Teachers' Participation in Professional Activities in Mathematics (PAM).	155
Exhibit 5.8 Teachers' Participation in Professional Development	155
Exhibit 5.9 Frequency of Collaboration Among Advanced Mathematics Teachers.	157
Exhibit 5.10 Schools' Reports on Ways They Evaluate Mathematics Teachers' Practices.	157
Characteristics of Advanced Mathematics Classes	158
Exhibit 5.11 Achievement and Class Size for Advanced Mathematics Instruction	159
Exhibit 5.12 Index of Student Factors Limiting Instruction in Advanced Mathematics	159
Activities in Advanced Mathematics Lessons	161
Exhibit 5.13 Students' Reports on Frequency of Various Learning Activities in Advanced Mathematics Lessons	162
Exhibit 5.14 Teachers' Reports on Frequency of Various Learning Activities in Advanced Mathematics Lessons	162
Exhibit 5.15 Policy and Usage of Textbooks	164
Exhibit 5.16 Teachers' Reports of the Percent of Time in Mathematics Lessons Spent on Various Activities in a Typical Week	166
Technology Use in Advanced Mathematics Classes	167
Exhibit 5.17 Students' Reports of Frequency of Using Different Technologies in Advanced Mathematics Lessons	168
Exhibit 5.18 Students' Reports on Types of Calculators Used During Advanced Mathematics Lessons	172
Exhibit 5.19 Teachers' Reports on the Types of Calculators Used by Students in the TIMSS Class During Advanced Mathematics Lessons	172
Exhibit 5.20 Teachers' Reports on Calculator or Computer Usage in Advanced Mathematics Class.	174
Exhibit 5.21 Trends in Students' Reports of Calculator Use During the TIMSS Advanced Mathematics Test	175
The Role of Homework in Advanced Mathematics Instruction	176
Exhibit 5.22 Index of Teachers' Emphasis on Advanced Mathematics Homework (EMH).	177
Exhibit 5.23 Teachers' Reports on the Kinds of Mathematics Homework Assigned to the TIMSS Advanced Mathematics Class	179

Exhibit 5.24	Students' Reports on the Time Spent Doing Various Kinds of Mathematics Homework	181
Types of Assessments Used in Advanced Mathematics Classes		182
Exhibit 5.25	Teachers' Emphasis on Sources to Monitor Students' Progress in Mathematics.	183
Exhibit 5.26	Frequency of Advanced Mathematics Tests	185
Exhibit 5.27	Formats of Questions Used by Teachers in Advanced Mathematics Tests or Examinations	185
Exhibit 5.28	Types of Questions in Advanced Mathematics Tests	187

Chapter 6191

School Contexts for Advanced Mathematics Learning and Instruction

Role of the School Principal and Availability of Mathematics Teachers		192
Exhibit 6.1	Principals' Percent of Time Spent on Various School-related Activities	193
Exhibit 6.2	Schools' Reports on Mathematics Teacher Recruitment	195
Orderly and Safe Schools		197
Exhibit 6.3	Index of Good Behavior at School for Students in the Final Year of Secondary School (GBS)	199
Exhibit 6.4	Index of Advanced Mathematics Teachers' Perceptions of Safety in Their Schools (TPSS).	199
Principals' and Teachers' Perceptions of School Climate		200
Exhibit 6.5	Index of Principals' Perceptions of School Climate (PPSC)	202
Exhibit 6.6	Index of Advanced Mathematics Teachers' Perceptions of School Climate (TPSC)	202
Exhibit 6.7	Schools' Policies for Encouraging Students to Study Advanced Mathematics	205
School Resources and Technology		206
Exhibit 6.8	Index of Adequacy of General School Resources (Shortages Do Not Affect Capacity to Provide Instruction) (AGSR)	208
Exhibit 6.9	Index of Adequacy of Resources Specifically for Mathematics Instruction (Shortages Do Not Affect Capacity to Provide Instruction) (ARMI).	208
Exhibit 6.10	Computer Availability and Internet Access in School	211

Chapter 7215

The Physics Curriculum in the Participating Countries

Overview of the Educational Systems		217
Exhibit 7.1	Structural Characteristics of the Physics Programs (Tracks) Assessed by TIMSS Advanced 2008	220
Description of the Students Assessed for TIMSS Advanced 2008		222
Exhibit 7.2	Size of the TIMSS Advanced 2008 Target Population for Physics, the Age Cohort, and the TIMSS Advanced Physics Coverage Index.	223
Characteristics of the Physics Curriculum		225
Exhibit 7.3	Structural Characteristics of the Physics Curriculum in Participating Countries	226
Exhibit 7.4	Number of TIMSS Physics Topics in the Intended Curriculum	226
Exhibit 7.5	Curriculum Studied by TIMSS Advanced Students Includes Policies Regarding Use of Computers and Calculators.	228
Exhibit 7.6	Examination System in Participating Countries	230
Exhibit 7.7	Methods Used to Evaluate the Implementation of the Curriculum for Physics	232

Exhibit 7.8	Formats in Which the Curriculum for Physics Is Made Available	232
Exhibit 7.9	Ways in Which Changes in the Curriculum Are Communicated to Teachers.	234
Implementation of the TIMSS Physics Curriculum		235
Exhibit 7.10	Weekly Hours of Intended and Implemented Instructional Time for Physics in the Final Year.	236
Exhibit 7.11	Percent of Time in Physics Class Devoted to TIMSS Content During the Final Year.	236
Exhibit 7.12	Average Percent of Students Taught the TIMSS Advanced 2008 Physics Topics Prior to or During the Final Year	238
Exhibit 7.13	Intended and Taught TIMSS Advanced 2008 Mechanics Topics	239
Exhibit 7.14	Intended and Taught TIMSS Advanced 2008 Electricity and Magnetism Topics	240
Exhibit 7.15	Intended and Taught TIMSS Advanced 2008 Heat and Temperature Topics.	240
Exhibit 7.16	Intended and Taught TIMSS Advanced 2008 Atomic and Nuclear Physics Topics	241
How Well Prepared Do Teachers Feel They Are to Teach Physics?		243
Exhibit 7.17	Percent of Students Whose Teachers Feel “Very Well” Prepared to Teach the TIMSS Advanced 2008 Physics Topics	244
Exhibit 7.18	Percent of Students Whose Teachers Feel “Very Well” Prepared to Teach the TIMSS Advanced 2008 Physics Topics in Mechanics, Electricity and Magnetism, Heat and Temperature, and Atomic and Nuclear Physics	246

Chapter 8 251

International Student Achievement in Physics

Distribution of Physics Achievement in the Participating Countries		251
Exhibit 8.1	TIMSS Advanced 2008 Distribution of Achievement in Physics.	253
Exhibit 8.2	Average Achievement in Physics by TIMSS Advanced 2008 Coverage Index for Physics	257
Achievement on TIMSS Advanced 2008 Physics Compared with Relative Achievement on TIMSS 2007		258
Exhibit 8.3	Average Physics Achievement at Fourth and Eighth Grades and in the Final Year of Secondary School for the TIMSS Advanced 2008 Countries	260
Gender Differences in Physics Achievement in the Participating Countries.		262
Exhibit 8.4	TIMSS Advanced 2008 Average Achievement in Physics by Gender.	263
Changes in Advanced Physics Achievement Between 1995 and 2008.		264
Exhibit 8.5	Trends in Average Achievement in Physics	265
Exhibit 8.6	Trends in Average Achievement in Physics by Gender	265
Achievement Differences Across the TIMSS Advanced 2008 Physics Content and Cognitive Domains		266
Exhibit 8.7	Average Percent Correct in the Physics Content and Cognitive Domains	268
Exhibit 8.8	Average Percent Correct in the Physics Content and Cognitive Domains by Gender	270

Chapter 9273

Physics Performance at the TIMSS Advanced 2008 International Benchmarks

How Do Countries Compare on the TIMSS Advanced 2008 International Benchmarks of Physics Achievement?	275
Exhibit 9.1 TIMSS Advanced 2008 International Benchmarks of Physics Achievement	276
Exhibit 9.2 Percent of Students Reaching the TIMSS Advanced 2008 International Benchmarks of Physics Achievement	277
Exhibit 9.3 Trends in Percent of Students Reaching the TIMSS Advanced 2008 International Benchmarks of Physics Achievement	277
Physics: Achievement at the Advanced International Benchmark.	279
Exhibit 9.4 TIMSS Advanced 2008 Advanced International Benchmark (625) of Physics Achievement – Example Item 1.	281
Exhibit 9.5 TIMSS Advanced 2008 Advanced International Benchmark (625) of Physics Achievement – Example Item 2.	283
Exhibit 9.6 TIMSS Advanced 2008 Advanced International Benchmark (625) of Physics Achievement – Example Item 3.	284
Physics: Achievement at the High International Benchmark.	285
Exhibit 9.7 TIMSS Advanced 2008 High International Benchmark (550) of Physics Achievement – Example Item 4.	286
Exhibit 9.8 TIMSS Advanced 2008 High International Benchmark (550) of Physics Achievement – Example Item 5.	288
Exhibit 9.9 TIMSS Advanced 2008 High International Benchmark (550) of Physics Achievement – Example Item 6.	290
Physics: Achievement at the Intermediate International Benchmark	291
Exhibit 9.10 TIMSS Advanced 2008 Intermediate International Benchmark (475) of Physics Achievement – Example Item 7.	292
Exhibit 9.11 TIMSS Advanced 2008 Intermediate International Benchmark (475) of Physics Achievement – Example Item 8.	294
Exhibit 9.12 TIMSS Advanced 2008 Intermediate International Benchmark (475) of Physics Achievement – Example Item 9.	295

Chapter 10299

Physics Students' Backgrounds and Attitudes

Home Environments Supportive of Physics Achievement	300
Exhibit 10.1 Books in the Home with Trends	301
Exhibit 10.2 Students Speak Language of the Test at Home with Trends.	303
Exhibit 10.3 Students and Parents Born in the Country with Trends.	303
Out of School Time and Computer Usage Among Physics Students	304
Exhibit 10.4 Time in Hours Physics Students Spend on Various Activities Outside of School on a Normal School Day	305
Exhibit 10.5 Time Students Spend Using a Computer Each Day	305
Exhibit 10.6 Computer Use at Home and at School	307
Exhibit 10.7 Various Ways Physics Students Use Computers for Schoolwork	309
Exhibit 10.8 Frequency of Computer Use for Physics Outside of Class	309

Working with a Physics Tutor and Preparing for Physics Tests	310
Exhibit 10.9 Frequency of Working with Physics Tutor	311
Exhibit 10.10 Frequency of Preparing for Physics Test or Examination	312
Students' Reasons for Studying Physics	313
Exhibit 10.11 Students' Reasons for Studying Physics – Students Have Positive Affect Toward Physics	314
Exhibit 10.12 Students' Reasons for Studying Physics – Good Teachers and Teaching	314
Exhibit 10.13 Students' Reasons for Studying Physics – Advice from Others	317
Areas of Future Study for Students of Physics	318
Exhibit 10.14 Physics Student's Aspirations for Future Study	319
Exhibit 10.15 Physics Student's Aspirations for Future Study by Gender	321

Chapter 11 325

Physics Teachers and Instruction in Physics

Background Characteristics of Physics Teachers	326
Exhibit 11.1 Physics Teachers' Gender, Age, and Number of Years Teaching	327
Exhibit 11.2 Teachers' Plans to Continue Teaching Physics	327
Teacher Education for Teaching Physics	328
Exhibit 11.3 Highest Educational Level of Physics Teachers	329
Exhibit 11.4 Teachers' Major or Main Area(s) of Study	330
Exhibit 11.5 National Requirements for Being a Teacher of Physics	330
Physics Teachers' Professional Activities and Development	331
Exhibit 11.6 Teachers' Participation in a Professional Organization for Physics Teachers	333
Exhibit 11.7 Index of Teachers' Participation in Professional Activities in Physics (PAP)	333
Exhibit 11.8 Teachers' Participation in Professional Development	335
Exhibit 11.9 Frequency of Collaboration Among Physics Teachers	335
Exhibit 11.10 Schools' Reports on Ways They Evaluate Physics Teachers' Practices	337
Characteristics of Physics Classes	338
Exhibit 11.11 Achievement and Class Size for Physics Instruction	339
Exhibit 11.12 Index of Student Factors Limiting Instruction in Physics	339
Activities in Physics Lessons	340
Exhibit 11.13 Students' Reports on Frequency of Various Learning Activities in Physics Lessons	341
Exhibit 11.14 Teachers' Reports on Frequency of Various Learning Activities in Physics Lessons	341
Exhibit 11.15 Policy and Usage of Textbooks	344
Exhibit 11.16 Teachers' Reports of the Percent of Time in Physics Lessons Spent on Various Activities in a Typical Week	346
Technology Use in Physics Classes	347
Exhibit 11.17 Students' Reports of Frequency of Using Different Technologies in Physics Lessons	348
Exhibit 11.18 Students' Reports on Types of Calculators Used During Physics Lessons	352
Exhibit 11.19 Teachers' Reports on the Types of Calculators Used by Students in the TIMSS Class During Physics Lessons	352
Exhibit 11.20 Teachers' Reports on Calculator or Computer Usage in Physics Class	353
Exhibit 11.21 Trends in Student's Reports of Calculator Use During the TIMSS Physics Test	355

The Role of Homework in Physics Instruction	356
Exhibit 11.22 Index of Teachers' Emphasis on Physics Homework (EPH)	357
Exhibit 11.23 Teachers' Reports on the Kinds of Physics Homework Assigned to the TIMSS Advanced Physics Class	359
Exhibit 11.24 Students' Reports on the Time Spent Doing Various Kinds of Physics Homework	361
Types of Assessments Used in Physics Classes	362
Exhibit 11.25 Teachers' Emphasis on Sources to Monitor Students' Progress in Physics	363
Exhibit 11.26 Frequency of Physics Tests	363
Exhibit 11.27 Formats of Questions Used by Teachers in Physics Tests or Examinations	365
Exhibit 11.28 Types of Questions in Physics Tests	367

Chapter 12 369

School Contexts for Physics Learning and Instruction

Role of the Principal and Availability of Physics Teachers	370
Exhibit 12.1 Principals' Percent of Time Spent on Various School-related Activities	371
Exhibit 12.2 Schools' Reports on Physics Teacher Recruitment	373
Orderly and Safe Schools	374
Exhibit 12.3 Index of Good Behavior at School for Students in the Final Year of Secondary School (GBS)	376
Exhibit 12.4 Index of Physics Teachers' Perceptions of Safety in Their Schools (TPSS)	376
Principals' and Teachers' Perceptions of School Climate	378
Exhibit 12.5 Index of Principals' Perceptions of School Climate (PPSC)	380
Exhibit 12.6 Index of Physics Teachers' Perceptions of School Climate (TPSC)	380
Exhibit 12.7 Schools' Policies for Encouraging Students to Study Physics	382
School Resources and Technology	383
Exhibit 12.8 Index of Adequacy of General School Resources (Shortages Do Not Affect Capacity to Provide Instruction) (AGSR)	386
Exhibit 12.9 Index of Adequacy of Resources Specifically for Physics Instruction (Shortages Do Not Affect Capacity to Provide Instruction) (ARPI)	386
Exhibit 12.10 Computer Availability and Internet Access in School	388

Appendix A 391

Supporting Documentation

TIMSS Advanced 2008 Advanced Mathematics and Physics Assessments	391
Exhibit A.1 Distribution of Advanced Mathematics and Physics Items by Content Domain and Cognitive Domain	392
Sample Implementation and Participation Rates	394
Exhibit A.2 Coverage of TIMSS Advanced 2008 Target Populations for Advanced Mathematics and Physics	395
Exhibit A.3 Size of the TIMSS Advanced 2008 Target Populations for Advanced Mathematics and Physics, Age Cohorts, and Coverage Indices	398
Exhibit A.4 School Sample Sizes – Advanced Mathematics and Physics	401
Exhibit A.5 Student Sample Sizes – Advanced Mathematics and Physics	402
Exhibit A.6 Participation Rates (Weighted) – Advanced Mathematics and Physics	403
Exhibit A.7 Trends in Characteristics of TIMSS Advanced Student Populations	404

Translation and Layout Verification	405
Survey Operations for Data Collection	406
Scoring the Constructed-response Items	407
Test Reliability	409
Scaling the Achievement Data	409
Scale Anchoring Analysis	411
Estimating Standard Errors	413
