Contents

Executive Summary 1

Chapter 1: Introduction 7

Overview
- Table 1.1: Countries Included in Report
- Table 1.2: Information About the Grades Tested

TIMSS Achievement Results
- Table 1.3: Distribution of Mathematics Achievement - Fourth Grade
- Table 1.4: Distribution of Science Achievement - Fourth Grade
- Table 1.5: Distributions of Mathematics Achievement - Eighth Grade
- Table 1.6: Distributions of Science Achievement - Eighth Grade
- Table 1.7: Distributions of Achievement in Mathematics Literacy - Final Year of Secondary School
- Table 1.8: Distributions of Achievement in Science Literacy - Final Year of Secondary School

Chapter 2: Roles and Responsibilities of Schools and School Principals 21

Activities that are Primarily a School Responsibility
- Table 2.1: Activities that Are Primarily a School Responsibility - Fourth Grade
- Table 2.2: Activities that Are Primarily a School Responsibility - Eighth Grade
- Table 2.3: Activities that Are Primarily a School Responsibility - Final Year of Secondary School

The Role of the School Principal
- Table 2.4: Hours per Month Principal Spends on Various School-Related Activities - Fourth Grade
- Table 2.5: Hours per Month Principal Spends on Various School-Related Activities - Eighth Grade
- Table 2.6: Hours per Month Principal Spends on Various School-Related Activities - Final Year of Secondary School

Influences on School Mathematics and Science Curricula
- Table 2.7: Various Groups and Individuals Having “Some” or “A Lot” of Influence in Determining the Curriculum Taught in the School - Fourth Grade
- Table 2.8: Various Groups and Individuals Having “Some” or “A Lot” of Influence in Determining the Curriculum Taught in the School - Eighth Grade
- Table 2.9: Various Groups and Individuals Having “Some” or “A Lot” of Influence in Determining the Curriculum Taught in the School - Final Year of Secondary School
- Table 2.10: Percent of Schools Having Their Written Statement of the Mathematics and Science Curriculum to Be Taught (Other than National and Regional Guides) - Fourth Grade, Eighth Grade, and Final Year of Secondary School

Chapter 3: School Organization and Staffing 39

How Do Countries Organize Their Schools to Accommodate Their Student Populations?
- Table 3.1: Percent of Students in Schools by Total School Enrollment - Fourth Grade
- Table 3.2: Percent of Students in Schools by Total School Enrollment - Eighth Grade
- Table 3.3: Percent of Students in Schools by Total School Enrollment - Final Year of Secondary School

How Do Countries Allocate Their Teaching Force?
- Table 3.4: Total School Enrollment and Staffing - Fourth Grade
- Table 3.5: Total School Enrollment and Staffing - Eighth Grade
- Table 3.6: Total School Enrollment and Staffing - Final Year of Secondary School
Which Criteria Do Schools Use in Admitting Students? 48
Table 3.7: Percent of Schools Using Various Criteria to Admit Students to School - Fourth Grade 49
Table 3.8: Percent of Schools Using Various Criteria to Admit Students to School - Eighth Grade 50

How Long Do Students Stay with the Same Teacher? 51
Table 3.9: Percent of Schools by the Number of Years Students Typically Stay with the Same Teacher - Fourth Grade 52
Table 3.10: Percent of Schools by the Number of Years Students Typically Stay with the Same Teacher - Eighth Grade 53

What Do Schools Do to Promote Cooperation and Collaboration among Teachers? 54
Table 3.11: Percent of Schools Having Policies and Practices Related to Cooperation and Collaboration Among Teachers - Fourth and Eighth Grade 55

Chapter 4: Organization for Learning Mathematics and Science 57
Do Countries Have Different Curricular Organizations Within or Across Schools to Account for Differences in Student Ability? 57
Table 4.1: Enrollments in Courses of Study in Mathematics and Science - Fourth Grade 58
Table 4.2: Enrollments in Courses of Study in Mathematics - Eighth Grade 61
Table 4.3: Enrollments in Courses of Study in Science - Eighth Grade 62

What Factors Are Involved in Deciding Students’ Courses of Study in Mathematics and Science? 63
Figure 4.1: Factors That Are Moderately or Very Important in Deciding Courses of Study in Mathematics - Fourth Grade 64
Figure 4.2: Factors That Are Moderately or Very Important in Deciding Courses of Study in Science - Eighth Grade 65

What Are School Policies for Students’ Instructional Time in Mathematics and Science? 66
Figure 4.3: Instructional Days in the School Year - Fourth and Eighth Grade 67
Figure 4.4: Amount of Time in School Scheduled for Instruction - Fourth Grade 68
Figure 4.5: Amount of Time in School Scheduled for Instruction - Eighth Grade 69
Table 4.4: Amount of Instruction in Mathematics and Science - Fourth Grade 71
Table 4.5: Amount of Instruction in Mathematics - Eighth Grade 72
Table 4.6: Amount of Instruction in Science - Eighth Grade 73

Chapter 5: School Resources 75
What Is the Availability of Computers for Teachers and Students? 75
Table 5.1: Availability of Computers in Schools for Use by Teachers and Students - Fourth Grade 77
Table 5.2: Availability of Computers in Schools for Use by Teachers and Students - Eighth Grade 78

In Which Countries Is Capacity to Provide Instruction Affected by School-Wide Shortages or Inadequacies? 79
Figure 5.1: Percent of Students in Schools Reporting School-Wide Shortages or Inadequacies that Affect Capacity to Provide Instruction - Fourth Grade 80
Figure 5.2: Percent of Students in Schools Reporting School-Wide Shortages or Inadequacies that Affect Capacity to Provide Instruction - Eighth Grade 82
Figure 5.3: Percent of Students in Schools Reporting School-Wide Shortages or Inadequacies that Affect Capacity to Provide Instruction - Final Year of Secondary School 84
Chapter 6: School Atmosphere  

What Were the Rates of Absenteeism and the Stability of the Student Bodies in the TIMSS Countries?  

- Figure 6.1: Percent of Students in Schools Reporting That At Least 5% of Students Are Absent on a Typical School Day or Leave School Before the End of the School Year - Fourth Grade  
- Figure 6.2: Percent of Students in Schools Reporting That At Least 5% of Students Are Absent on a Typical School Day or Leave School Before the End of the School Year - Eighth Grade  
- Figure 6.3: Percent of Students in Schools Reporting That At Least 5% of Students Are Absent on a Typical School Day or Leave School Before the End of the School Year - Final Year of Secondary School  

What Types of Problems do Schools face?  

- Table 6.1: Schools’ Reports on Dealing with Students’ Problem Behaviors At Least Monthly - Fourth Grade  
- Table 6.2: Schools’ Reports on Dealing with Students’ Problem Behaviors At Least Monthly - Eighth Grade  
- Table 6.3: Schools’ Reports on Dealing with Students’ Problem Behaviors At Least Monthly - Final Year of Secondary School  

Appendix A: TIMSS Design and Procedures  

Test Design  
Sampling  
Coverage of the Target Populations  
- Table A.1: Coverage of TIMSS Target Population - Population 1  
- Table A.2: Coverage of TIMSS Target Population - Population 2  
- Table A.3: Coverage of TIMSS Target Population - Population 3  
TIMSS Coverage Index for Final-Year Assessment  
- Table A.4: Computation of TCI: Estimated Percentage of School-Leaving Age Cohort Covered by TIMSS Sample - Final Year of Secondary School  
School and Student Sampling and Participation Rates  
- Table A.5: School Sample Sizes - Fourth Grade  
- Table A.6: Student Sample Sizes - Fourth Grade  
- Table A.7: School Sample Sizes - Eighth Grade  
- Table A.8: Student Sample Sizes - Eighth Grade  
- Table A.9: School Sample Sizes - Mathematics and Science Literacy - Final Year of Secondary School  
- Table A.10: Student Sample Sizes - Mathematics and Science Literacy - Final Year of Secondary School  
- Table A.11: Participation Rates - Fourth Grade  
- Table A.12: Participation Rates - Eighth Grade  
- Table A.13: Participation Rates - Mathematics and Science Literacy - Final Year of Secondary School  
Indicating Compliance with Sampling Guidelines  
- Figure A.1: Countries Grouped According to Their Compliance with Guidelines for Sample Implementation and Participation Rates - Fourth Grade  
- Figure A.2: Countries Grouped According to Their Compliance with Guidelines for Sample Implementation and Participation Rates - Eighth Grade  
- Figure A.3: Countries Grouped According to Their Compliance with Guidelines for Sample Implementation and Participation Rates - Mathematics and Science Literacy - Final Year of Secondary School
# Table of Contents

Data Collection Procedures .................................................. A-24
Scoring the Free-Response Items ........................................... A-24
Data Processing ................................................................. A-25
IRT Scaling and Data Analysis .............................................. A-26
Estimating Sampling Error .................................................... A-27

## Appendix B: Supplementary Tables for Chapters 5 and 6, School Resources and Atmosphere

- **Table B.1**: School-Wide Shortages or Inadequacies in Facilities and Materials that Affect General Capacity to Provide Instruction “Some” or “A Lot” - Fourth Grade
  - B-2
- **Table B.2**: Shortages or Inadequacies that Affect Capacity to Provide Instruction in Mathematics “Some” or “A Lot” - Fourth Grade
  - B-3
- **Table B.3**: Shortages or Inadequacies that Affect Capacity to Provide Instruction in Science “Some” or “A Lot” - Fourth Grade
  - B-4
- **Table B.4**: School-Wide Shortages or Inadequacies in Facilities and Materials that Affect General Capacity to Provide Instruction “Some” or “A Lot” - Eighth Grade
  - B-5
- **Table B.5**: Shortages or Inadequacies that Affect Capacity to Provide Instruction in Mathematics “Some” or “A Lot” - Eighth Grade
  - B-6
- **Table B.6**: Shortages or Inadequacies that Affect Capacity to Provide Instruction in Science “Some” or “A Lot” - Eighth Grade
  - B-7
- **Table B.7**: School-Wide Shortages or Inadequacies in Facilities and Materials that Affect General Capacity to Provide Instruction “Some” or “A Lot” - Final Year of Secondary School
  - B-8
- **Table B.8**: Shortages or Inadequacies that Affect Capacity to Provide Instruction in Mathematics “Some” or “A Lot” - Final Year of Secondary School
  - B-9
- **Table B.9**: Shortages or Inadequacies that Affect Capacity to Provide Instruction in Science “Some” or “A Lot” - Final Year of Secondary School
  - B-10
- **Table B.10**: Percent of Students Who Are Absent on a Typical School Day - Fourth Grade
  - B-11
- **Table B.11**: Percent of Students Who Are Absent on a Typical School Day - Eighth Grade
  - B-12
- **Table B.12**: Percent of Students Who Are Absent on a Typical School Day - Final Year of Secondary School
  - B-13
- **Table B.13**: Percent of Students Leaving School Before the End of the School Year - Fourth Grade
  - B-14
- **Table B.14**: Percent of Students Leaving School Before the End of the School Year - Eighth Grade
  - B-15
- **Table B.15**: Percent of Students Leaving School Before the End of the School Year - Final Year of Secondary School
  - B-16
